GOATS WILL PROTECT SHEEF

Pennsylvanian Keeps Two Angoras to Drive Away Panthers and Other Animals of Prey.

In order to frustrate an attack of kin fock of sheep by a catamount or senther, David Glover of near liant will be as purchased two Angoras gouts. The pugnacity of these gotts is said that no enimal of pusy due att up! the sheep relieves of that wild seed the hears and catamount and now with a real panther in the neighborhood it became necessary to do something desperate. Mr. Glover hit upon the Angora goat ide and it seems to have settled the problem. The gootte are misters of alley survey, all right even the most of the study creatures. At this sea, to the study creatures At this sea, to lear the sheep are on the sild ranges. Other sheep relievant to the study creatures at this sea, to lear the sheep are on the sild ranges. Other sheep relievant the sild ranges. Other sheep raisers are watching Mr. Glover's experiment.

Cement Gun.

There is an ownerting the problem the sild ranges of the sild care of the sild ranges of the sild care of the sild ranges. Other sheep raisers are watching Mr. Glover's experiment.

# GRANGE MIXTURE IS THE BEST

station a mortificat

inici a e

track of I ars the ands stro

Lust of all, we ask you to purdon this letter's being printed in this shape. The expense of writing a person whether to the held furners in South east Ala we found, would be more than we can afford. If they will take time to read it, we feel the time will not be wasted. tis not a begging letter. We have found that it is better for our interests not to beg fars mers to buy our brands, but to make our goods so that we can really feel that we do not want any one to buy unless he wants to. And so -this is not a begging letter.

Don't buy it unless you really feel that you want the best. However, the purp use o this advertisement is to call the attention of the farmer who needs the best, to the value of GRANGE MIXTURE. It is our idea of an honest brand. We put into it what we know about guano-not what we think, coss or estimate -but what we know - I or a few cents above the price of ordinary guano, you get double value for the difference -plain a daylight. The plant food formula of GRANGL MEXICEL is liked to suit the chemica needs of the soils of this section it will.

It is not merely our idea of what we can make people think a good tertilizer ought to be. As developed by the Dothan Guano Co., after many years of experimental work it stands the test of time-that hardest test. We did not make these tend experiments at the risk and expense of our customers. We did not take on every new tangled material which bobbed up because it was cheap. We stuck to that which we did know, and year by year our sales steadily increase. The perfection of GRANGL MIX LURL, in producing in creased crop results is positively unequated by any other

We do not only believe-we know- it is as perfectly adapted to our soils and crop needs as any you ever hought before at any price. It will unfailingly outlast any other kind This statement has been proved over and over again using times, and ic is easy enough for you to prove it for yourself. Don't be misled into buying something claimed be "the same thing." You can teach a pariot to say, "Just good" but he won't know what no is talking about. Our trade mark protects you. This year, be sure the circle with the word "Makes Green Lields" is on the bag.

Falk about testimonials? Why, we receively every shipping acason telegrams and letters by the score from the very best dealers and planters in this or any other country, simifar to this. "Why don't you send us some GRANGL MIX I I Re?" Our customers will not have anything else' and "For goodness sake ship us anot! " our or GRANGE MIX-LURL. We are entirely out and people went back with empty wayons today because wdidn't have GRANGL MIXICRE ' As for testimony from the actual users; it is constantly coming to us, only day before vesterday, we got this one tunsofied drittom Dr. Dalton. Anybody who knows him, knows that he always tells just what he means and thinks. Read what he corofus to,

Taylor, Ala.

Dothan Carrsoft o., Bothan, Ale

Gamlemen.

This is to certally that fill ANGL MINTER' give in by far the best results last year than any other brands—not withst unding I used several other brands. I regard it as being the best guino that the farmer can use for this section. If shall use no other this year. If I had used all GRA's GL. MrXIURL that year, I would have made ten more b<sub>ales of cotton</sub>
